

Our Hearts Ask for God

We live in a world where many people claim, 'There is no God,' and yet we know there is. There are a lot of reasons why we believe this, but first and foremost, we are drawn to God. Our hearts recognize our need for Him.

Some people take this need for God and transfer it to things they can see. They worship the stars. They worship the trees. Some people even make things so that they can have a god that they can see. They want to know God.

We want to know God too. And we can! God has revealed Himself to us in His creation and in His Word. Through our study, we will learn how great and wonderful He is. We will learn how He takes care of us. And we will learn how to love Him and live close to Him even though we cannot see Him.

Our God is what we need! And the great thing is that He has chosen to make Himself known to us. He just asks that we come to Him, wanting to know Him more.

Discussion Questions

1. What does the voice deep down in our hearts tell us?
2. Why cannot the sun and the stars be our gods?
3. Why do people love created things rather than the Creator?
4. Why do we need God?

Memory Verse

Draw near to God, and he will draw near to you.

James 4:8
