

God is one God

There are people who believe that there are lots of gods. Some people believe that each and every thing that God created has a different god that controls it:

A god to control the stars.

A god to control the seas.

A god to control the weather.

Some people even bow down to gods that are made by man called idols. They believe that something made out of wood can be in control of the world. But we know that there is only one God and He is in control of ALL things.

God wants us to save all of our worship for Him, because He is worthy of all of our praise. He commands us to love Him only and not make the mistake of worshipping the things that He created.
