

God's Blesses Us

The world is the way it is because God created it that way. He created it beautiful so that we can enjoy the world that He created!

Every one of us is by God, simply by being able to enjoy the beauty of His creation. The sun rises each morning because He tells it to. The rain comes to water the plants because He commands it. The flowers grow and the birds sing because that is what He created them to do.

When God made the world, He put Adam and Eve in a beautiful garden. After they sinned against Him, they had to leave the beautiful garden, but this did not mean that God took away everything that was beautiful. They still got to live out their lives with the great gifts of His creation.

God took His people across the desert to a beautiful new land. Moses got to go up on a mountain and see the wonderful land that God had promised. God wanted His people to see His beauty as He expressed it in creation. He loves them and wanted them to be able to enjoy Him. He loves us too! He wants us to enjoy Him! He wants us to recognize that He is the source for all joy, and praise Him for that.

Discussion Questions

1. How does creation show God's love?
2. Why don't we deserve His blessing?
3. How has God blessed you?

Memory Verse

I will be glad and exult in you;

I will sing praise to your name, O Most High. | **Psalm 9.2**
